

Why do design professionals worldwide t

It's simple, really. Arlon combines application engineering with superior standards in manufacturing and customer service to deliver one of the largest families of quality specialty papers, tapes, foams and films to design professionals and fabricators worldwide. ■ From our name-brand Duralon™ papers to our extensive variety of Arlon pressure sensitive tapes, foams and films, our experts engineer and manufacture each Arlon product with particular applications in mind.

● Duralon™ Durable Paper

For identification cards, packaging and in-store displays, no other paper performs like Arlon's Duralon™ Durable Paper. A remarkably flexible yet sturdy substrate featuring a polyester center ply laminated between premium quality coated or uncoated paper.

Ideal for

- In-store signage
- Identification cards
- Loyalty program cards
- Tamper resistant blister packaging
- Durable labels or product tags

- Premium weight and feel
- Duralon™ papers eliminate "tear through" at mounting points
- Compatible with most print processes and standard inks, including most photo copiers
- Low static
- Easy to cut, perforate, glue and emboss

● Arlon Double-Sided Tapes

Arlon's series of reliable, double-faced foam and film tapes provide a solution for virtually every application.

In addition to Arlon's quality stock products, custom tapes can be engineered to meet the exact properties that your application requires. Arlon has double-sided tapes suitable for:

- Structural assembly of permanent displays
- In-field assembly of corrugated displays
- Mounting of signs, shelf talkers, labels, tags, sign holders and permanent fixtures

● Arlon Removable Tapes

Arlon has engineered one of the most versatile families of removable tapes in the industry. Our series of removable tapes include constructions for all of your temporary applications... whether coated on both sides with a removable adhesive, or used in combination with permanent adhesives. Arlon offers repositionable tapes that become permanent with time, light-tack tapes, and aggressive adhesive tapes that can still be removed cleanly. The versatility of Arlon removable tapes makes them ideal for:

- Mounting of temporary signs and displays
- Anchoring counter mats
- Label and tag applications
- Laminating stock for decals and signage
