Arlon Announces the Launch of DPF 4300

Santa Ana, CA – January 2, 2012 - Arlon is excited to announce the launch of DPF 4300, a 3.4-mil (86 micron) opaque matte white calendered film with removable adhesive. The film is a multi-purpose clean removable film for an easy on & easy off application. It offers flexibility as well as high opacity for covering previous graphics up to three layers. DPF 4300 also provides good resistance to scuffing, tearing, and abrasion to help protect your graphics. DPF 4300 is offered in 54" wide rolls by 50 yds.

"DPF 4300 is one of many new removable films that Arlon has recently released and is a great addition to Arlon's Removable Digital Line," states Linda Babilo, Product Manager, Arlon Graphics. "DPF 4300's clean removable adhesive allows for an easy on and easy off application, which will save your company time and money."

About Arlon:

Arlon Graphics, LLC, manufactures and markets a full line of high quality pressure sensitive cut vinyl, flexible substrates, and print media films for the digital imaging, signage, vehicle graphic and screen printing industries. Arlon is headquartered in Santa Ana, CA, with strategically positioned distribution out of Australia, Europe, India, Latin America, the UK and Uruguay to service our customers worldwide.
