DISCOVER OUR DIGITAL PRINT INTERIOR WALL FILMS

- ▶ DPF 4200 MATTE/CANVAS
- ▶ DPF 4300
- ▶ DPF 510 ULTRA TACK

INTERIOR WALLS

DPF 4200 Matte/Canvas

The adhesive of DPF 4200 is specially designed to have initial repositionability to substrates such as smooth to slightly textured painted walls without compromising the ultimate bond and ease of application.

- ▶ Flexible opaque film which offers high opacity for covering previous graphics and dark substrates
- ▶ Efficient and easy installation
- ▶ No overlamine required
- ▶ Fire certified for Europe and the USA
- ▶ Superior print quality on a wide variety of print systems

*Please refer to the
Interior Walls
Installation Guide*

DPF 4300

DPF 4300 is an intermediate multi-purpose print media film featuring a removable adhesive. The Easy On, Easy Off features include a robust face film that is thick enough to be easily applied without an overlamine.

- ▶ Simple installation with easy removal
- ▶ Works well on multi-substrate applications

DPF 510 Ultra Tack

With this monomeric film you can expect nothing but the best print quality in the market at a budget-friendly price point forming a permanent bond for lasting and vibrant impact.

- ▶ Ultra tack adhesive for multi-purpose applications
- ▶ Exceptional, vibrant print
- ▶ Solvent-based adhesive
- ▶ Two-sided, lay-flat polycoated liner

EXTERIOR

DISCOVER OUR DIGITAL PRINT EXTERIOR WALL FILMS

- ▶ DPF 8000™ ULTRA TACK
- ▶ DPF 8200 HIGH TACK
- ▶ DPF 8200X HIGH TACK

EXTERIOR WALLS

DPF 8000™ Ultra Tack

Conquering the toughest applications, DPF 8000™ Ultra Tack is the solution for surfaces that are hard-to-stick to. DPF 8000™ Ultra Tack offers secure adhesion strength to low energy surfaces and textured substrates, like brick and concrete.

- ▶ The hard-to-stick surface solution
- ▶ Multi-purpose high tack adhesive

DPF 8200 High Tack

DPF 8200 High Tack is the ultimate premium film for textured surfaces and installations on demanding surfaces. A durable film combined with a low shrink, high tack adhesive formula that allows for greater dimensional stability - making it easier to apply.

- ▶ Easy to convert, print, and apply, optimizing your workflow
- ▶ Enhanced dimensional stability
- ▶ Low shrink adhesive system
- ▶ Strong adhesion for demanding applications

DPF 8200X High Tack + **X-Scape** TECHNOLOGY

With the combination of a unique low shrink, high tack adhesive system and bubble releasing X-Scape Technology®, DPF 8200X High Tack will adhere especially well to smooth surfaces along with slightly textured wall substrates such as brick, tile and concrete.

- ▶ Low profile X-Scape Technology® for easy, bubble-free installations
- ▶ Low shrink adhesive system
- ▶ Easy to convert, print, and apply, optimizing your workflow
- ▶ Strong adhesion for demanding applications

- ▶ SERIES 5400 ETCHED GLASS
- ▶ DPF 50WD WHITE/CLEAR
- ▶ DPF 45WF

DPF 5200 Etched Glass

Etched Glass / Silver Etched Glass / Sparkle Etched Glass

Ideal film to transform glass or clear substrates into elegant designs.

- ▶ Premium decorate cast film
- ▶ Ideal choice for both printed and non-printed graphics
- ▶ Synthetic liner makes wet and dry application easy

Series 5400 Etched Glass

Silver Etched Glass / Sparkle Etched Glass

The etched glass film adds elegance to your décor, as well as additional privacy when applied to windows and doors.

- ▶ Economic decorative polymeric film for windows
- ▶ Added privacy without compromising natural light

DPF 50WD White/Clear

This clean removable window film bonds well to glass surfaces and has a premium moisture stable polycoated lay-flat liner that is optimal for printing on a variety of print systems.

- ▶ Layflat liner for great print quality
- ▶ Easy, clean removal

DPF 45WF

DPF 45WF window film delivers sleek and superior print quality on the outside, and allows you to see through the reverse side of the graphic. A black-back film with 60/40 perforation size.

- ▶ Unique black-back construction provides clean removability
- ▶ Larger hole size provides increased outward visibility

Installing Large Interior Wall Graphics

Today, printed interior wall graphics are gradually taking over paint and wallpaper due to their ease of application and removal, customizability and even profitability. In this example, we are installing on a free-standing wall with no ceilings or adjacent walls.

► WATCH THE VIDEO

Testing an Exterior Wall for Media Compatibility

The first step to qualifying a wall wrapping media is to analyze and identify the surface. This video gives you some tips on how to properly test a wall for media compatibility.
