DPF 410G / M / GT / MT

DPF 410 is the ideal solution for 1-year promotional applications. The performance to value ratio offers a strong adhesion with the substrate through the duration of the product life and maintains consistent print quality for attractive graphics. The liner properties of DPF 410 make it ideal for contour cutting and decals. As a permanent application, this product is best suited for flat applications on point of purchase displays, exhibitions, and indoor and outdoor retail shops. With its excellent printability on Eco-Solvent and Solvent printers, your graphics will leave a lasting impression.

Unique Features:

- ▶ Value Solution for 1-Year Applications
- ▶ Strong Adhesion for Permanent Bond
- ▶ Bright White Point for Attractive Graphics
- ▶ Optimal Liner Performance for Contour Cutting and Decals

Applications:

- ▶ Short-Term Promotional Graphics
- ▶ Flat Surface Applications
